Synergies to fuel Researchers' Careers
Luxembourg, 10 – 11 December 2015

organised by

Fonds National de la
Recherche Luxembourg

11 December 2015 – Plenary Session

My Career and What I Learned Along the Way

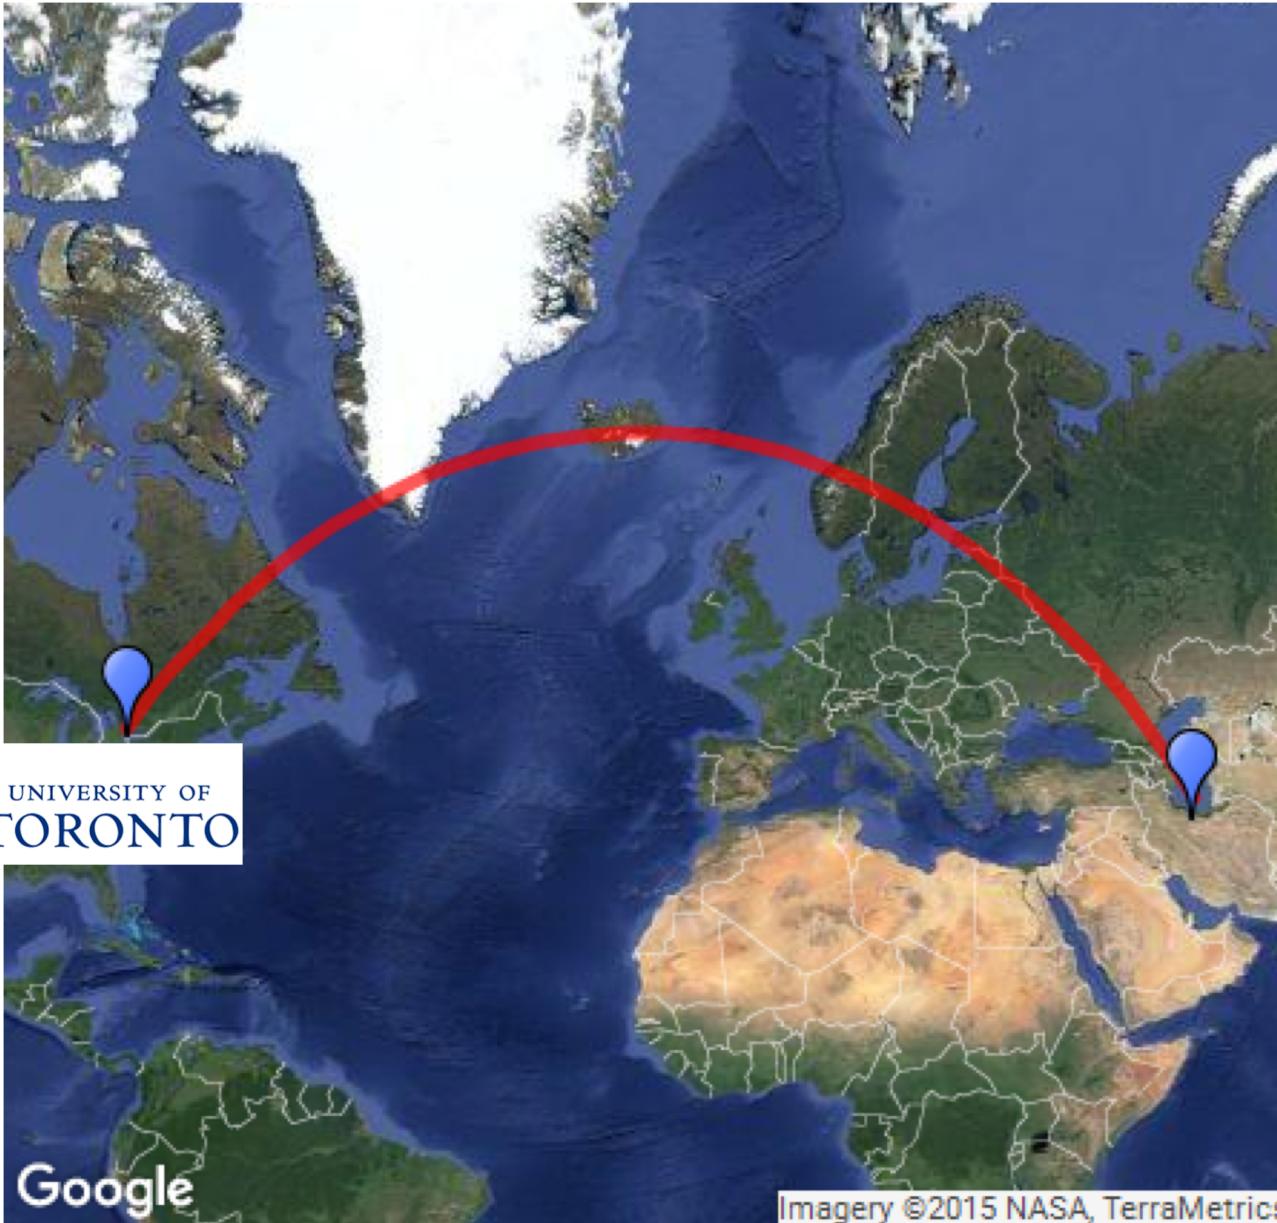

Shiva Nejati

SnT/University of Luxembourg

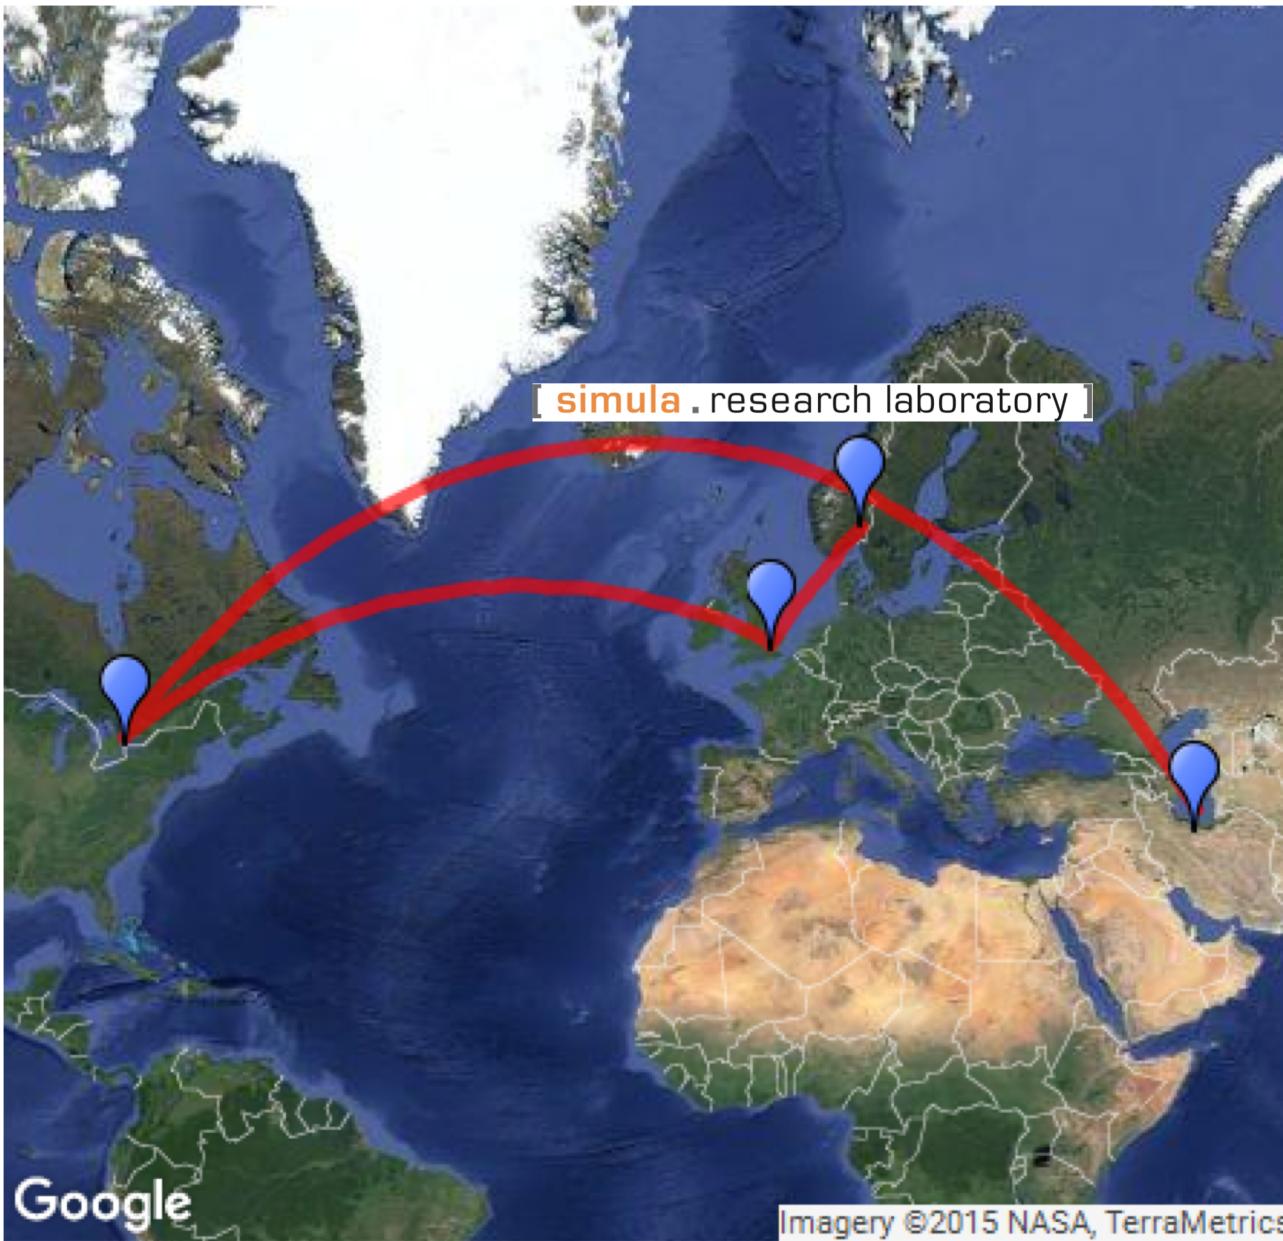

Early education

MSc and PhD in Software Engineering

A six-month research visit

Industry relevant research

Industry relevant research

Industry-Relevant Research: Difficult but Rewarding

To Move or Not To Move: Cons

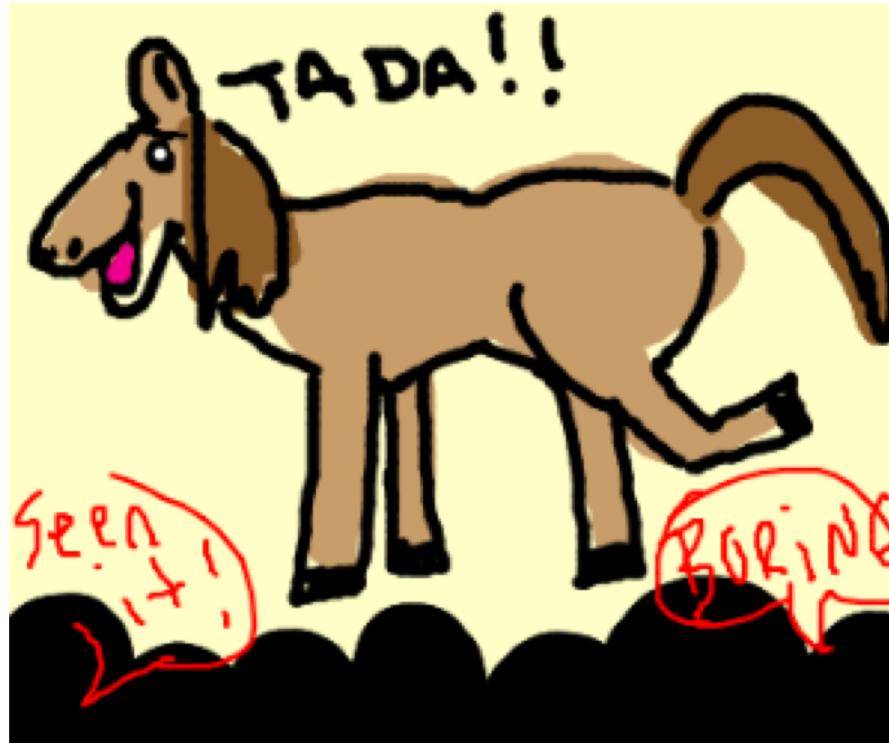

- It is difficult to move!
- You have to prove/establish/adapt yourself over and over again
 - as you change research topics, research collaborators, community, ..., immigration status, neighbors

To Move or Not To Move: Pros

- You become a more diverse researcher and person

Not a one trick pony!

Where the
magic happens
